Subject: RE: Call with Lake County

Hi all –

Keeping you in the loop.

As you know, we've been talking for some time with Lake County about the withdrawal of their asbestos rule. Our Rules office has been in touch with Lake County's APCO, Richard Gearhart, to ask about setting up a three-agency call about the asbestos rule withdrawal. EPA outlined the process (District sends letter to CARB then CARB makes request to EPA), and let him know about the CARB/EPA conversation last month (specifically, that CARB did not object to the withdrawal). He responded that he doesn't think a call is necessary at this time and requested an example letter, which we will provide.

Ginger

Subject: Call with Lake County

Hi Ariel and Pippin –

At CARB's request, we're working on setting up a three-agency call with Lake County to discuss withdrawal of its asbestos rule – it's my recollection that Sylvia requested specifically that you both be on the call. We'd like to have the call as soon as possible and are checking in with the APCO regarding his availability. How does your week look? It'd be very helpful if you could provide several times when you are both available so we can coordinate with the District. Thank you!

Ginger
